PROFESSIONAL SUMMARY

Information Science Engineering graduate with hands-on experience in Java, Spring Boot, SQL, MySQL, REST APIs, and full-stack web development. Skilled in software development, testing, troubleshooting, and enterprise application development, seeking a Software Engineer, Enterprise Application Developer, or Full Stack Developer role.

EDUCATION

Adichunchanagiri Institute of Technology

Aug 2022 – May 2026

Bachelor of Engineering in Information Science – CGPA: 8.75/10

Chikkamagaluru, Karnataka

Government PU College (Karnataka State Board)

Jun 2021 – Apr 2022

Pre-University Education – Percentage: 79.45%

Hassan, Karnataka

EXPERIENCE

Java Full Stack Developer Intern

Jan 2026 – May 2026

Palle Technologies Pvt. Ltd.

Onsite

- Designed and developed an E-Commerce web application using **Java, Spring Boot, MySQL, HTML, CSS, and JavaScript**.
- Built, tested, and debugged **RESTful APIs** with **CRUD operations** for product and user management.
- Performed application testing, troubleshooting, debugging, deployment support, and used Git for version control, Postman for API testing, and Maven for project builds.

Artificial Intelligence with Cloud Computing Intern

Feb 2026 – May 2026

SuprMentr

Online

- Developed an Iris Flower Classification model using Python and Machine Learning algorithms.
- Performed data preprocessing, model training, and model evaluation for classification tasks.
- Applied machine learning techniques to classify Iris flower species and analyze model performance.

PROJECTS

Government Exam Navigator | Java, JDBC, MySQL, Swing, Maven

- Developed a Java desktop application using Java, JDBC, MySQL, and Swing for managing government examination information.
- Implemented user authentication, exam notifications, syllabus management, and CRUD operations for efficient data management.

AI-Powered Resume Analyzer and Interview Assistant | Python, Flask, PostgreSQL

- Developed an AI-powered career platform with resume analysis, AI chatbot, mock interviews, and personalized learning recommendations.
- Developed REST APIs using Flask and PostgreSQL while supporting backend development, database operations, and application integration.

TECHNICAL SKILLS

Programming Languages: Java, SQL, JavaScript, Python

Frameworks & Technologies: Spring Boot, Flask, React.js, REST APIs, HTML5, CSS3, NLP

Databases: MySQL, PostgreSQL, MongoDB

Developer Tools: Git, GitHub, Maven, Postman, VS Code, Eclipse, Linux

Core Concepts: OOP, Software Development, Agile, DBMS, Operating Systems, Computer Networks, Data Structures

COURSEWORK

Relevant Coursework: Data Structures, Object-Oriented Programming, Operating Systems, Computer Networks, DBMS, Software Engineering, Algorithms, Project Management, Web Technologies

CERTIFICATIONS

HackerRank: Java (Basic)

CodSoft: Programming in Java

HackerRank: JavaScript (Basic)

IBM: Python 101 for Data Science

Google: Generative AI Studio

Deloitte: Data Analytics Job Simulation

Anthropic: Claude 101

Anthropic: AI Fluency - Framework and Foundations

SkillCraft: Web Development

PARTICIPATIONS

Smart India Hackathon (Internal Round)

Sept 2025

Team Participant

Adichunchanagiri Institute of Technology

- Collaborated in the Smart India Hackathon (Internal Round) to develop an innovative solution for a real-world problem, enhancing teamwork and problem-solving skills.
